

Individual Department Operating accounts within ACFD #1

To receive reimbursement from ACFD #1 Board each department must have a separate operating bank account that is used for the reception and distribution of public funds.

The account shall use the fire district EIN and each department shall provide evidence from the banking institution that this requirement is met.

All of the activities of this operating account are controlled under all applicable state law.

The district board can review the activities of these operating accounts at any time but not less than once a year.
